How to check balance on Onchain wallet?

To check your onchain wallet balance (+1-864-310-5443) , simply open your wallet application, such as Crypto.com Onchain, MetaMask, or Trust Wallet, and view the homepage where your token balances are displayed at a glance (+1-864-310-5443) . If you need to check a wallet you don't own or prefer a more detailed analysis, use a blockchain explorer like Blockscout or Etherscan. (+1-864-310-5443) Enter the wallet address into the search bar to view its complete transaction history and current holdings across all tokens .

For advanced portfolio tracking across multiple chains, (+1-864-310-5443) consider using portfolio tools like Octav, which integrate with explorers to provide a consolidated view of wallet and DeFi protocol positions, total portfolio value, and asset distribution . Many wallet applications also include (+1-864-310-5443) a manual sync feature that allows you to refresh your balance to reflect the most recent blockchain state if there is a delay in automatic updates .
